DPD Connector

Infobrochure

English Version

Streamline your shipping processes with seamless integration

Are you looking to streamline your shipping processes and enhance efficiency within Business Central? Look no further than our DPD Connector. This innovative solution seamlessly integrates DPD's powerful shipping services directly into the heart of Business Central, empowering your team to simplify the shipping process and focus on growing your business.

Key Features

Generate DPD Package Number

With just a few clicks, create the DPD Package Number directly within the sales oder interface of Business Central, eliminating the need for manual data entry and streamlining your shipping workflow.

Create Package Label PDF

Generate the PDF for the package label within Business Central, ensuring accurate and professional packaging labels for every shipment.

Benefits

Increased Efficiency

Say goodbye to manual data entry and disjointed workflows. Our connector enables your team to complete essential shipping tasks directly within Business Central, saving time and resources.

Improved Accuracy

Eliminate the risk of errors and discrepancies with automated data syncing between Business Central and DPD. Ensure accurate packaging labels and shipping information for every order.

Enhanced Customer Satisfaction

Deliver a seamless shipping experience to your customers with fast, reliable shipping options and timely delivery. Boost customer satisfaction and loyalty with efficient order fulfillment.

How it Works

1. **Order Placement**

   Customers place orders.

2. **Order Processing**

   Order is being created in Business Central.

3. **Shipping Integration**

   The DPD Connector springs into action within Business Central, enabling your team to generate the DPD Package Number and the PDF for the package label directly within the sales order interface.

4. **Efficient Fulfillment**

   With shipping tasks completed directly within Business Central, your team can expedite order fulfillment and ensure timely delivery to your customers.
