Simplify Your Picking Process with QR Picking Lists!

Are manual picking errors slowing down your warehouse operations?

Introducing QR Picking Lists – The Smarter Way to Pick Orders

Streamline your order fulfillment process with **QR Picking List**, the simple and effective app for **Dynamics 365 Business Central**. Generate picking lists directly from **sales orders** or **sales offers**, and use **QR codes** to make counting and picking faster and more accurate.

Key Benefits

Faster Picking, Fewer Errors

- Eliminate manual data entry and reduce picking mistakes.

Simple QR Scanning

- Scan QR codes with any mobile scanner or smartphone for instant data access.

Better Organization

- Clearly structured picking lists to streamline warehouse processes.

Low Cost, High Impact

- Affordable, easy-to-use, and designed for quick implementation.
-

How Does It Work?

Print Picking Lists

- Generate picking lists directly from your sales orders or quotes in Dynamics 365.

Scan QR Codes

- Each line item includes a unique QR code for fast verification during picking.

Confirm and Ship

- Quickly validate picked items and prepare orders for shipment with confidence.
-

Who Is It For?

Small to Medium Warehouses looking to streamline manual processes.

Retail and Wholesale Businesses managing large inventories.

Distribution Centers needing efficient and error-free order fulfillment.

Why choose QR Picking List?

No Tech Overload – Focused on simplicity and efficiency rather than unnecessary features.

Ready in Minutes – Install, set up, and start printing QR-enhanced picking lists in no time.

Affordable Pricing – Perfect for businesses of all sizes without breaking the bank.
